## Boosting the Rural Economy

Submitted by kdad on July 31, 2014

Alhaji Muhibi, the owner of Kharma Farms in northern Ghana, improved his farming operation and that of his 900 smallholder outgrowers by introducing a more efficient planting tool called a dibbler, pictured here. The dibbler helped them increase their yields 65 percent and their incomes by 77 percent in just one year. *Photo by Fenton B. Sands, USAID*
